Non-GAAP Financial and Other Measures

In addition to financial measures based on generally accepted accounting principles (GAAP), management uses non-GAAP financial measures to assess the Bank's underlying ongoing business performance. Non-GAAP financial measures presented throughout this document are referred to as "adjusted" measures and exclude amounts designated as adjusting items. Adjusting items include certain items of significance that arise from time to time which management believes are not reflective of underlying business performance, as well as the amortization of acquisition-related intangible assets. Non-GAAP financial measures are not standardized financial measures under the financial reporting framework used to prepare the financial statements of the Bank and might not be comparable to similar

financial measures disclosed by other issuers. The Bank believes non-GAAP financial measures are useful to readers in obtaining a better understanding of how management assesses the Bank's performance and in analyzing trends.

The following tables show a reconciliation of the non-GAAP financial measures to their most directly comparable financial measure that is disclosed in the primary financial statements of the Bank.

Consolidated Results

Three months ended July 31, 2025 financial performance

Net income was \$37.5 million and diluted earnings per share were \$0.73 for the third quarter of 2025, compared with net income of \$34.1 million and diluted earnings per share of \$0.67 for the third quarter of 2024. Adjusted net income was \$39.6 million and adjusted diluted earnings per share were \$0.78 for the third quarter of 2025, compared with \$43.1 million and \$0.88 for the third quarter of 2024. Refer to the Non-GAAP Financial and Other Measures section for a reconciliation of non-GAAP financial measures.

Total revenue

Total revenue decreased by \$9.7 million to \$246.8 million for the third quarter of 2025, compared with \$256.5 million for the third quarter of 2024, mainly attributable to a decrease in other income, as detailed below.

Net interest income increased by \$5.1 million or 3% to \$185.9 million for the third quarter of 2025, compared with \$180.8 million for the third quarter of 2024, due to the growth of average earning assets and higher interest income from favourable shifts in the Bank's business mix. The net interest margin was 1.82% for the third quarter of 2025, an increase of 3 basis points compared with the third quarter of 2024, mainly for the same reasons.

Other income decreased by \$14.8 million to \$60.9 million for the third quarter of 2025, compared with \$75.7 million for the third quarter of 2024. Fees and securities brokerage commissions decreased by \$4.7 million compared with the third quarter of 2024 mainly as a result of the sale of assets under administration of LBS' retail full-service investment broker division in the fourth quarter of 2024. Lower income from financial instruments and lower lending fees as a result of subdued economic activity also contributed to the decrease.

Provision for credit losses

The provision for credit losses was \$11.1 million for the third quarter of 2025, compared with \$16.3 million for the third quarter of 2024, a decrease of \$5.2 million as a result of lower provisions on impaired loans, partially offset by lower releases of provisions on performing loans. The provision for credit losses as a percentage of average loans was 12 basis points for the quarter, compared with 18 basis points for the same quarter a year ago. Refer to the "Credit risk" section on pages 14 to 16 of the Bank's MD&A for the third quarter of 2025 and to Note 5 to the Condensed Interim Consolidated Financial Statements for additional information on provision for credit losses and allowances for credit losses.

Non-interest expenses

Non-interest expenses amounted to \$189.8 million for the third quarter of 2025, a decrease of \$10.5 million compared with the third quarter of 2024. Adjusted non-interest expenses decreased by \$1.3 million or 1% to \$186.9 million for the third quarter of 2025, compared with \$188.1 million the third quarter of 2024.

Salaries and employee benefits amounted to \$96.7 million for the third quarter of 2025, a decrease of \$3.0 million compared with the third quarter of 2024, largely driven by efficiency gains stemming from a reduced headcount and lower performance-based compensation, primarily as a result of the divestiture of assets under administration from LBS' retail investment broker divisions.

Premises and technology costs were \$53.9 million for the third quarter of 2025, an increase of \$2.7 million compared with the third quarter of 2024. The increase year-over-year is mainly due to higher technology costs as the Bank is investing in its strategic priorities.

Other non-interest expenses were \$36.2 million for the third quarter of 2025, a decrease of \$3.9 million compared with the third quarter of 2024, mainly resulting from lower amortization of acquisition-related intangible assets, partly offset by higher professional fees to support the Bank's strategic priorities.

Impairment and restructuring charges were \$2.9 million for the third quarter of 2025, compared with \$9.1 million for the third quarter of 2024. In the third quarter of 2025, impairment and restructuring charges were driven by the simplification of the Bank's technology infrastructure and organizational structure, as well as updated estimates related to leased corporate office premises. In the third quarter of 2024, restructuring charges of \$9.1 million related to the simplification of the Bank's organizational structure and headcount reduction. Refer to the Non-GAAP Financial and Other Measures section for further details.

Efficiency ratio

The efficiency ratio on a reported basis decreased to 76.9% for the third quarter of 2025, compared with 78.1% for the third quarter of 2024. The decrease compared to the prior year is mainly due to the lower non-interest expenses and higher net interest income in the third quarter of 2025, as described above. The adjusted efficiency ratio increased to 75.7% for the third quarter of 2025, compared with 73.3% for

the third quarter of 2024, mainly as a result of lower total revenue.

Income taxes

For the third quarter of 2025, the income tax expense was \$8.5 million, and the effective income tax rate was 18.4%. For the third quarter of 2024, the income tax expense was \$5.9 million, and the effective income tax rate was 14.7%. For both quarters, the lower effective income tax rate, compared to the statutory income tax rate, is attributed to a lower taxation level on income from foreign operations.

Financial Condition

As at July 31, 2025, total assets amounted to \$49.9 billion, a 5% increase compared with \$47.4 billion as at October 31, 2024 mostly due to the higher level of liquid assets, notably securities, and higher loans.

Liquid assets

As at July 31, 2025, liquid assets as presented on the balance sheet amounted to \$13.2 billion, an increase of \$2.0 billion compared with \$11.2 billion as at October 31, 2024. The Bank continues to prudently manage its level of liquid assets. The Bank's funding sources remain well diversified and sufficient to meet all liquidity requirements. Liquid assets represented 26% of total assets as at July 31, 2025, in line with October 31, 2024.

Loans

Loans, net of allowances, stood at \$35.6 billion as at July 31, 2025, an increase of \$0.5 billion since October 31, 2024. Commercial loans amounted to \$17.6 billion as at July 31, 2025, an increase of \$0.9 billion or 6% since October 31, 2024 mainly from our commercial specialties, namely commercial real estate, equipment financing and inventory financing. Personal loans of \$2.0 billion as at July 31, 2025 decreased by \$0.1 billion from October 31, 2024, mainly as a result of a decline in the investment loan portfolio, reflecting the impact of continued market volatility and high interest rates. Residential mortgage loans of \$16.2 billion as at July 31, 2025 decreased by \$0.3 billion or 2% from October 31, 2024.

Deposits

Deposits increased by \$1.2 billion to \$24.3 billion as at July 31, 2025 compared with \$23.2 billion as at October 31, 2024. Personal deposits stood at \$21.2 billion as at July 31, 2025, an increase of \$1.5 billion compared with \$19.7 billion as at October 31, 2024. Of note, deposits from advisors and brokers increased by \$2.2 billion and personal notice and demand deposits from partnerships decreased by \$0.7 billion since October 31, 2024. Personal deposits represented 87% of total deposits as at July 31, 2025, compared with 85% as at October 31, 2024, and contributed to the Bank's sound liquidity position. Business and other deposits decreased by \$0.3 billion over the same period to \$3.2 billion as at July 31, 2025.

Debt related to securitization activities

Debt related to securitization activities increased by \$0.4 billion or 3% compared with October 31, 2024 and stood at \$13.8 billion as at July 31, 2025. During the quarter, new issuances of cost-effective long-term debt related to securitization activities more than offset maturities of liabilities, as well as normal repayments.

Shareholders' equity and regulatory capital

Shareholders' equity stood at \$2.9 billion as at July 31, 2025 and increased by \$27.0 million compared with October 31, 2024. Retained earnings increased by \$38.1 million compared to October 31, 2024, mainly as a result of the sum of the net income contribution of \$108.4 million, partly offset by dividends and other distributions amounting to \$74.6 million. Accumulated other comprehensive income decreased by \$20.2 million compared to October 31, 2024. For additional information, please refer to the Capital Management section of the Bank's MD&A and to the Consolidated Statement of Changes in Shareholders' Equity for the period ended July 31, 2025.

The Bank's book value per common share was \$57.70 as at July 31, 2025 compared to \$57.36 as at October 31, 2024.

The CET1 capital ratio was 11.3% as at July 31, 2025, in excess of the minimum regulatory requirement and the Bank's target management levels. The CET1 capital ratio increased by 40 basis points compared with 10.9% as at October 31, 2024, mainly due to a reduction in risk-weighted assets and internal capital generation. The Bank met OSFI's capital and leverage requirements throughout the quarter.

On August 12, 2025, the Board of Directors declared a dividend of \$0.38725 per Preferred Share Series 13, payable on September 15, 2025 (the "Payment Date"), that will be paid out on September 16, 2025, the first business day following the Payment Date, to shareholders of record on September 8, 2025. This quarterly dividend is equal to the dividend declared in the previous quarter and to the dividend declared in the previous year. On August 28, 2025, the Board also determined that shares attributed under the Bank's Shareholder Dividend Reinvestment and Share Purchase Plan will be made in common shares issued from Corporate Treasury at no discount.
