## Non-GAAP Financial and Other Measures

In addition to financial measures prepared based on generally accepted accounting principles (GAAP), management utilizes non-GAAP financial measures to evaluate the Bank's underlying and ongoing business performance. These non-GAAP financial measures, referred to throughout this document as adjusted measures, exclude items identified as adjusting items. Adjusting items consist of certain items of significance that arise from time to time which management believes are not indicative of underlying business performance, as well as the amortization of acquisition-related intangible assets.

Non-GAAP financial measures are not standardized financial measures under the financial reporting framework used to prepare the Bank's financial statements and may not be comparable to similar measures disclosed by other issuers. The Bank believes these non-GAAP financial measures are useful to readers in obtaining a better understanding of how management assesses the Bank's performance and in analyzing trends.

The following tables present a reconciliation of the non-GAAP financial measures to their most directly comparable financial measure that is disclosed in the primary financial statements of the Bank.

#### Business Highlights

##### Transactions Announced On December 2, 2025

On December 2, 2025, Laurentian Bank and National Bank of Canada (directly or through one or more affiliates) ("National Bank") have entered into a definitive agreement to acquire Laurentian Bank's retail and SME banking portfolios (the "Retail/SME Transaction"). Laurentian Bank and National Bank have also entered into a definitive agreement in respect of the sale to National Bank of Laurentian Bank's syndicated loan portfolio (the "Syndicated Loan Transaction" and, collectively with the Retail/SME Transaction, the "National Bank Transactions").

In parallel, Fairstone Bank of Canada has entered into a definitive agreement (the "Acquisition Transaction Agreement") to acquire all issued and outstanding common shares of Laurentian Bank (the "Laurentian Bank Shares") (the "Acquisition Transaction" and, collectively with the Retail/SME Transaction, the "Transactions").

The National Bank Transactions will be fully settled in cash and cash equivalents, with the final consideration based on outstanding balances at closing. The final consideration for the Syndicated Loan Transaction will be the outstanding balance of the purchased loans at closing, minus \$50 million. If the purchase price was calculated as at July 31, 2025, the aggregate purchase price of the Retail/SME Transaction (including related premium) and the Syndicated Loan Transaction (including related discount) would approximate net book value.

Refer to the Press Release issued on December 2, 2025 and to the Business Highlights section in the Bank's 2025 Annual Report, including the MD&A for the year ended October 31, 2025, for additional information about the Transactions and the Syndicated Loan Transaction.

#### Our Strategic Plan In Action

The "Our Path Forward" strategic plan, presented in the prior fiscal year, sets out the Bank's approach to the financial services industry and outlines its specialized approach.

Since announcing its strategic plan, the Bank has remained focused on delivering the goals it set to transform the organization and achieve its medium-term financial targets. While work is still ongoing, concrete steps have been taken to build a stronger, more sustainable, and more profitable Laurentian Bank.

In 2025, the Bank advanced its strategic transformation by sharpening its focus, reinforcing its operational foundation, and investing in future-ready capabilities. These initiatives reflect our commitment to sustainable performance, guided by the principles of specialization, simplification, and efficiency.

A key area of progress was the Bank's enhanced commercial specialization, which strengthens our ability to serve targeted markets with deep sector expertise. This strategic focus positions Laurentian Bank to deliver differentiated value and drive long-term growth.

Our roadmap for 2025 was ambitious. We are proud to report that we delivered against our plan, achieving several transformational milestones. Notably, the deployment of cloud-based systems has significantly improved our operational efficiency, resilience, and customer experience. These investments are foundational to building a bank that is agile, secure, and well-positioned for the future. Operational resiliency and redundancy were also meaningfully enhanced, enabling the Bank to respond swiftly to

change, maintain stability, and ensure consistent service delivery to our clients.

Employee engagement remained strong throughout the year, with participation rates reaching 87% and engagement levels at 82%. These results are particularly noteworthy given the scale of transformation underway, and they underscore the dedication and adaptability of our workforce.

### Medium-term Financial Targets

As a result of the strategic developments announced on December 2, 2025, further detailed above, the Bank is withdrawing its previously disclosed medium-term financial targets introduced in May 2024. The Bank will continue to focus on executing its commercial banking strategy and delivering value through disciplined capital management, operational efficiency, and enhanced customer solutions.

### Consolidated Results

#### *Three months ended October 31, 2025 financial performance*

Net income was \$31.5 million and diluted earnings per share were \$0.66 for the fourth quarter of 2025, compared with net income of \$40.7 million and diluted earnings per share of \$0.88 for the fourth quarter of 2024. Adjusted net income was \$34.2 million and adjusted diluted earnings per share were \$0.73 for the fourth quarter of 2025, compared with \$40.9 million and \$0.89 for the fourth quarter of 2024. Refer to the Non-GAAP Financial and Other Measures section for a reconciliation of non-GAAP financial measures.

#### **Total revenue**

Total revenue decreased by \$6.1 million to \$244.7 million for the fourth quarter of 2025, compared with \$250.8 million for the fourth quarter of 2024, mainly attributable to a decrease in other income, as detailed below.

*Net interest income* increased by \$8.8 million or 5% to \$182.7 million for the fourth quarter of 2025, compared with \$173.9 million for the fourth quarter of 2024. This growth was primarily driven by favourable shifts in the Bank's business mix and growth of average earning assets. The net interest margin was 1.79% for the fourth quarter of 2025, an increase of 2 basis points compared with the fourth quarter of 2024, primarily for the same underlying reasons.

*Other income* decreased by \$14.8 million to \$62.1 million for the fourth quarter of 2025, compared with \$76.9 million for the fourth quarter of 2024. The decrease was mainly due to a \$14.0 million gross profit related to the sale of assets under administration of LBS' retail full-service investment broker division recorded in the fourth quarter of 2024. Other income categories remained relatively stable year-over-year for the fourth quarter.

#### **Provision for credit losses**

The provision for credit losses was \$18.0 million for the fourth quarter of 2025, compared with \$10.4 million for the fourth quarter of 2024, representing an increase of \$7.6 million. This increase primarily reflects higher provisions on impaired loans partly offset by higher releases on performing loans. The provision for credit losses as a percentage of average loans was 20 basis points for the quarter, compared with 12 basis points for the same quarter one year ago. Refer to the "Credit risk management" section on pages 43 to 50 of the Bank's MD&A for the year ended October 31, 2025 and to Note 6 to the Consolidated Financial Statements for additional information on provision for credit losses and allowances for credit losses.

#### **Non-interest expenses**

Non-interest expenses amounted to \$188.8 million for the fourth quarter of 2025, a decrease of \$5.6 million compared with the fourth quarter of 2024. Adjusted non-interest expenses increased by \$7.4 million or 4% to \$185.1 million for the fourth quarter of 2025, compared with \$177.7 million for the fourth quarter of 2024.

*Salaries and employee benefits* amounted to \$94.5 million for the fourth quarter of 2025, an increase of \$7.3 million compared with the fourth quarter of 2024, reflecting higher performance-based compensation and staffing investments in support of ongoing progress towards the Bank's strategic objectives.

*Premises and technology costs* were \$54.5 million for the fourth quarter of 2025, an increase of \$2.3 million compared with the fourth quarter of 2024. The increase year-over-year is mainly due to higher technology costs as the Bank pursues investments in its infrastructure and strategic priorities, as well as increased depreciation charges resulting from recently completed projects.

*Other non-interest expenses* were \$36.1 million for the fourth quarter of 2025, a decrease of \$2.5 million compared with the fourth quarter of 2024, mainly resulting from lower general operational costs, partially offset by higher professional and advisory service fees to support the Bank's strategic priorities.

*Impairment and restructuring charges* were \$3.7 million for the fourth quarter of 2025, compared with \$16.5 million for the fourth quarter of 2024. In the fourth quarter of 2025, impairment and restructuring charges were driven by initiatives to streamline the Bank's organizational structure, as well as from revised estimates related to lease contracts for corporate office premises. In the fourth quarter of 2024, restructuring charges of \$16.5 million related to the simplification of the Bank's organizational structure and headcount reduction.

#### **Efficiency ratio**

The efficiency ratio on a reported basis decreased to 77.2% for the fourth quarter of 2025, compared with 77.5% for the fourth quarter of 2024. The decrease compared to the prior year is primarily due to lower impairment and restructuring charges related to organizational simplification and headcount reduction undertaken in 2024. The adjusted efficiency ratio increased to 75.6% for the fourth quarter of 2025, compared with 75.0% for the fourth quarter of 2024, for reasons highlighted in the analysis above.

#### **Income taxes**

For the fourth quarter of 2025, the income tax expense was \$6.4 million, and the effective income tax rate was 16.8%. For the fourth quarter of 2024, the income tax expense was \$5.2 million, and the effective income tax rate was 11.4%. For both quarters, the lower effective income tax rate, compared to

the statutory income tax rate, is attributed to a lower taxation level on income from foreign operations.

***Three months ended October 31, 2025 compared with three months ended July 31, 2025***

Net income was \$31.5 million and diluted earnings per share were \$0.66 for the fourth quarter of 2025, compared with net income of \$37.5 million and diluted earnings per share of \$0.73 for the third quarter of 2025. Adjusted net income was \$34.2 million and adjusted diluted earnings per share were \$0.73 for the fourth quarter of 2025, compared with \$39.6 million and \$0.78 for the third quarter of 2025. Refer to the Non-GAAP Financial and Other Measure section for a reconciliation of non-GAAP financial measures. Net income available to common shareholders in the fourth quarter of 2025 included only the quarterly dividend declared on the Preferred Shares Series 13. In contrast, the figure in the third quarter of 2025 included the semi-annual interest payment on Limited Recourse Capital Notes in addition to the quarterly dividend declared on the Preferred Shares Series 13.

Total revenue decreased by \$2.1 million to \$244.7 million for the fourth quarter of 2025 compared with \$246.8 million for the third quarter of 2025.

*Net interest income* decreased by \$3.2 million to \$182.7 million, primarily driven by lower interest income, reflecting a decline in average inventory financing loan volumes compared to the prior quarter. Net interest margin was 1.79% for the fourth quarter of 2025, a decrease of 3 basis points compared with 1.82% the third quarter of 2025, mainly for the same reasons.

*Other income* amounted to \$62.1 million for the fourth quarter of 2025, an increase of \$1.1 million compared with \$60.9 million for the previous quarter. This increase was primarily driven by higher lending fees, reflecting stronger momentum in commercial real estate toward the end of the fourth quarter.

The provision for credit losses was \$18.0 million for the fourth quarter of 2025, an increase of \$6.9 million compared with \$11.1 million for the third quarter of 2025. This increase primarily reflects higher provisions on impaired commercial loans.

*Non-interest expenses* decreased by \$0.9 million to \$188.8 million for the fourth quarter of 2025 from \$189.8 million in the third quarter of 2025. In the fourth quarter of 2025, non-interest expenses included impairment and restructuring charges of \$3.7 million, compared with \$2.9 million in the third quarter of 2025. Adjusted non-interest expenses amounted to \$185.1 million in the fourth quarter of 2025, a decrease of \$1.8 million, primarily due to seasonally lower employee benefits.

**Financial Condition**

As at October 31, 2025, total assets amounted to \$50.1 billion, a 6% increase compared with \$47.4 billion as at October 31, 2024 mostly due to the higher level of liquid assets, notably securities, and higher loans.

***Liquid assets***

As at October 31, 2025, liquid assets as presented on the balance sheet amounted to \$13.1 billion, an increase of \$1.9 billion compared with \$11.2 billion as at October 31, 2024. The Bank continues to prudently manage its level of liquid assets. The Bank's funding sources remain well diversified and sufficient to meet all liquidity requirements. Liquid assets represented 26% of total assets as at October 31, 2025, compared with 24% as at October 31, 2024.

***Loans***

Loans, net of allowances, stood at \$35.8 billion as at October 31, 2025, an increase of \$0.8 billion since October 31, 2024. Commercial loans amounted to \$17.9 billion as at October 31, 2025, an increase of \$1.3 billion or 8% since October 31, 2024 from our growth engines, namely commercial real estate, inventory financing and equipment financing. Personal loans, which amounted to \$2.0 billion as at October 31, 2025 decreased by \$0.1 billion from October 31, 2024, mainly as a result of a decline in the investment loan portfolio, reflecting the impact of continued market volatility and high interest rates. Residential mortgage loans of \$16.1 billion as at October 31, 2025 decreased by \$0.4 billion or 2% from October 31, 2024, mainly due to slower housing market activity.

***Deposits***

Deposits increased by \$0.8 billion to \$24.0 billion as at October 31, 2025, compared with \$23.2 billion as at October 31, 2024. Personal deposits stood at \$21.2 billion as at October 31, 2025, an increase of \$1.5 billion compared with \$19.7 billion as at October 31, 2024. Of note, deposits from advisors and brokers increased by \$2.6 billion and personal notice and demand deposits from partnerships decreased by \$0.9 billion from October 31, 2024. Personal deposits represented 88% of total deposits as at October 31, 2025, compared with 85% as at October 31, 2024, and contributed to the Bank's sound liquidity position. Business and other deposits decreased by \$0.7 billion over the same period to \$2.8 billion as at October 31, 2025.

***Debt related to securitization activities***

Debt related to securitization activities increased by \$0.6 billion or 4% compared with October 31, 2024 and stood at \$14.1 billion as at October 31, 2025. During the year, new issuances of cost-effective long-term debt related to securitization activities more than offset maturities of liabilities, as well as normal repayments.

***Shareholders' equity and regulatory capital***

Shareholders' equity stood at \$2.9 billion as at October 31, 2025 and increased by \$53.3 million compared with October 31, 2024. Retained earnings increased by \$44.5 million compared to October 31, 2024, mainly as a result of the sum of the annual net income contribution of \$139.9 million, partly offset by dividends and other distributions. Accumulated other comprehensive income decreased by \$9.1 million compared to October 31, 2024. For additional information, please refer to the Capital Management section of the Bank's MD&A and to the Consolidated Statement of Changes in Shareholders' Equity for the year ended October 31, 2025.

The Bank's book value per common share was \$57.67 as at October 31, 2025 compared to \$57.36 as at October 31, 2024.

The CET1 capital ratio was 11.3% as at October 31, 2025, in excess of the minimum regulatory requirement and the Bank's target management levels. The CET1 capital ratio increased by 40 basis points compared with 10.9% as at October 31, 2024, mainly due to internal capital generation, as well as from a reduction in risk-weighted assets. The Bank met OSFI's capital and leverage requirements throughout the year.

On November 12, 2025, the Board of Directors declared a dividend of \$0.38725 per Preferred Share Series 13, payable on December 15, 2025 (the "Payment Date"), that will be paid out on December 16, 2025, the first business day following the Payment Date, to shareholders of record on December 8, 2025. On December 4, 2025, the Board of Directors declared a quarterly dividend of \$0.47 per common share, payable on February 1, 2026 (the "Payment Date"), that will be paid out on February 2, 2026, the first business day following the Payment Date, to shareholders of record on January 5, 2026. This quarterly dividend is equal to the dividend declared in the previous quarter and to the dividend declared in the previous year. On December 4, 2025, the Board also determined that shares attributed under the Bank's Shareholder Dividend Reinvestment and Share Purchase Plan will be made in common shares issued from Corporate Treasury at no discount.
